

KilnLink App

Instructions to Link your Kiln(s)

Congratulations on the purchase of your New Touchscreen Controller! One of the exciting new features of this controller is a tool we hope you find very valuable, a **Free App!**

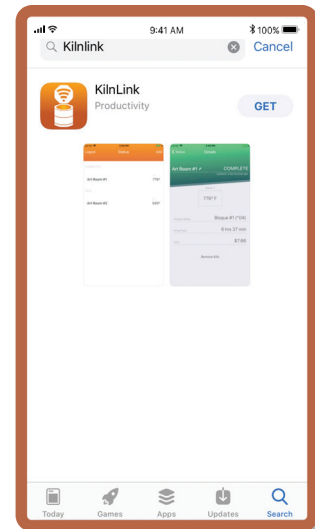

KilnLink Free App works in conjunction with the WiFi and allows you to monitor your kiln temperature and status from your smartphone. Think how comforting it will be not to have to get out of bed or drive across town to check your kiln! *Stay connected ON THE GO!*

Let's Get Started!

Linking your kiln(s) will only take a few minutes. You will need to have your smartphone and KMT/GMT controller(s) with Wifi access in place before you begin.

Download the free KilnLink App from your smartphone's app store.

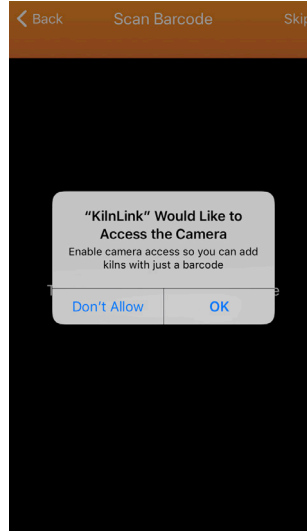

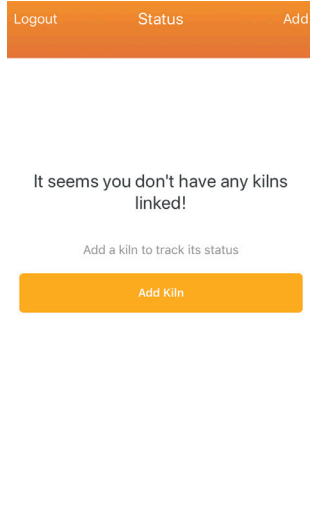

Open the App and select **Sign Up** for your Free Account with an email address and password.

- The App will send an email with a Confirmation Code to the email address you entered.
- Check your email, Enter the code and press Confirm.

Add a Kiln - Press the Add Kiln button and allow the KilnLink App access to your smartphone's camera. The camera will then open for you to capture the Controller's Serial Number Barcode.

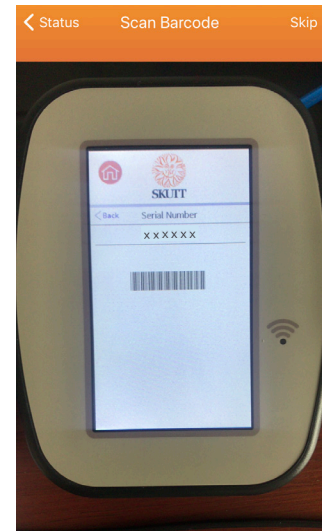

Locate the Controller's Serial Number by pressing the **Wifi** icon in the top left corner of your controller's Home Screen and select **Serial Number** from the menu.

Add Serial - When the camera scans the barcode, the controller's serial number will pre-populate in the app screen. Press **Next** in the top right corner.

Nickname your Kiln - In the KilnLink App, Enter a Nickname for your kiln and select **Link** in the top right corner of the App.

Congratulations, you have linked your kiln!

To link additional kilns, follow the same steps.

NOTE: You may add multiple KMT/GMT equipped kilns to the KilnLink App, however there can only be one owner per kiln controller at this time.
