¹ Kilns with Wired Rings (-27 on older models) include 2 additional Elements except model 145WR which has 1 additional Element.

² APM Elements are engineered to last longer in applications with high temperatures and long hold times.

³ KS818, KS818-3" and KS818P-3" models began using the same element design as their corresponding KM818 models on October 1st, 2017. If you are replacing **ALL** the elements in a model built prior to this date, we suggest you use the corresponding model KM elements. WR kilns and individual replacements, must use old design.
