Cultural Themed Radial Design Thumbnail Sketch

Directions:

Draw your culture themed radial design in the circle below with pencil.

- Make sure the design radiates out from the center point, and is the same (or nearly the same) all of the way around the circle (so that it has radial balance). **the dashed lines are just there to help you draw, they are not a part of the design.*
- Incorporate imagery, symbols, shapes, patterns (whatever you want) from your culture research. *You don't have to add everything from your research, and you are allowed to add things you didn't put on your research worksheet.*

Radial Mandala Design Thumbnails

Directions: Create 3 different designs that have radial balance (the same all of the way around the circle) using shapes and lines. Each design should be detailed and complex. Then, pick your favorite of the 3 designs to draw just the top left quadrant large and PAINT your selected color scheme.
