

Slab Heart Box

Sketch and Plan

Sketch your box design. This could be the front and side, or front and back.

Answer the following questions, written on the same page as your sketch.

1. What size will your project be?
Ht. _____ Length _____
Diameter _____
2. What type of construction will you use to create this project?
3. What finish will your project have? (Glaze, Underglaze, Slip, Acrylic, Spray paint)

Make a Slab & Cut Pieces

Score & Slip - Attach with Welding & Smoothing

Make a Flange on Lid

Add and Subtract Clay to Make the Details

- Create small details - score and slip to attach
- To subtract, carve details into the clay
- Focus on creativity and craftsmanship
